PROFILE

I'm a Java Backend Developer passionate about building reliable, scalable, and maintainable systems. I have experience developing RESTful APIs, working with Spring Boot, relational databases, and microservices architecture. I strive for clean code, solid performance, and continuous learning.

SKILLS

Java · Spring Boot · Microservices · REST
APIs · Docker · Kubernetes · Kafka · Git · AI agents

EXPERIENCE

Senior Developer · Acme Corp 2023 – Present

Led the frontend architecture migration and mentored junior developers.

Developer · StartupXYZ 2021 – 2023

Built core product features and improved CI/CD pipeline performance by 40%.

Junior Developer · Agency Co 2019 – 2021

Developed client websites and internal tools using modern web technologies.
